Education

Master of Statistics in Biostatistics, The University of Abomey-Calavi, BENIN, *In Progress* 2024 - 2026

Thesis: Comparative Evaluation of Local Inconsistency Detection Methods in Sparse and Multi-Arm Network Meta-Analysis.

MSc in Applied Statistics, Meru University of Science and Technology, KENYA, *Submitted* 2023 - 2026

Thesis: Modeling Time to Hospital Readmissions Among Diabetic Patients in Kenya Using Cox Proportional Hazard Model and Frailty Models, a case study of Meru County

BSc. in Mathematics and Computer Science, Statistics, Kenya Methodist University 2019 - 2022

First Class Honors, GPA 3.76/4.00

Thesis: The influence of Family Background on the Academic Performance of Persons with Disabilities in Special Schools in Meru County, Kenya, DOI: <https://doi.org/10.58506/ajstss.v2i2.204>

Achievements and Awards

- DAAD Scholar (2024-Present): Awarded the prestigious DAAD Scholarship to pursue a Master's in Biostatistics, recognizing academic excellence and research potential
- Best Performing Graduate, Class of 2022: During my graduation, I was recognized as the First Valedictorian from the school of Pure and Applied Sciences in KeMU, 2022, having First Class Honors in Statistics
- Attended the 2nd Multisectoral Conference organized by NRF and NACOSTI as an Exhibitor for the Competence Network for E-Inclusion and Assistive Technologies (CNEAT) Research Project at Safari Park Hotel, Nairobi, 2023
- Managed to be an Exhibitor and a Presenter for the CNEAT Project to the President of Kenya during the Jamhuri Day Tech summit at KICC in Nairobi, 2022

Publications

- The influence of Family Background on the Academic Performance of Persons with Disabilities in Special Schools in Meru County, Kenya, DOI: <https://doi.org/10.58506/ajstss.v2i2.204>

Working Experience

Data Analyst, Contract, Solution SACCO 5/2024 - 1/2025

Joined the Business, Research, and Development department as the Lead Data Analyst and provided performance Reports on various KPIs

Data / Revenue Analyst, Internship, Safarilink Aviation 3/2024 - 5/2024

1. Revenue Management: Analyzing passenger demand, booking patterns, and market conditions to optimize ticket pricing, ensuring competitive fares while maximizing revenue
2. Capacity Forecasting: Monitoring flight occupancy levels and making data-driven

recommendations for capacity adjustments (adding or removing flights).

3. Working with historical data and market trends to forecast future revenue, assist in budgeting, and guide the airline's financial strategy
4. Working closely with the sales, marketing, and operations teams to align strategies with revenue goals and customer satisfaction
5. Creating reports on key performance metrics, including revenue growth, load factor, and profitability, for management review
6. Trained on the safety measures and operations within the aviation industry

Research Assistant, Part-Time, Meru University, CNEAT Academy

2020 – 2024

1. Technical Trainer for the teachers and caregivers in the schools for people with disabilities
2. Conduct qualitative and quantitative analysis on assigned data
3. Traveled to field sites to gather and record data appropriate to the specific objectives of the study
4. Prepare reports and presentations using SPSS, Microsoft Excel, and Microsoft PowerPoint
5. Data Analysis and Visualizations
6. Reports and presentations

Data Clerk, Contract, Elephant Dental Limited 2022 - 2024

1. Data entry and management of data
2. Data analysis and visualization
3. Computer formatting and maintenance
4. Knowledge of Hospital Management Information Systems
5. Evaluation of the technology in the organization to recommend upgrades for hardware and software resources.
6. Managed backup, user accounts, and help desk systems
7. Knowledge of SQL and Databases

Skills

- Python and R Programming
- Data analysis skills, Data collection, and preprocessing.
- Knowledge of analytical tools: MS Excel, SPSS, Power BI, Tableau, Jamovi
- Research
- Good Reporting and Communication skills
- Spreadsheets and Data Visualization
- Good listening skills and a Team player

Certifications and Online Short Courses

- ✓ R Basics and Beyond, GRAPH Courses, 2025
- ✓ Professional Google Data Analytics, Coursera, 2023
- ✓ Cybersecurity Essentials, CISCO Academy, 2021

Teaching Experience

Teaching Assistant: As a teaching assistant, in Mathematics, Physics, and Chemistry at Chandumba Secondary School, Vihiga County. I was tasked with helping Form 3 and Form 4 students with their revisions. I was working under the supervision of the Principal and Mr. Abwao. During my time, my class performed well, with several students registering A grades in Mathematics.

Personal Tutor: As an academician from Kenya Methodist University, I have had the privilege to teach both Master's and PhD students in their Statistics units. This would not have been possible if it were not for my mentor, Mr Murithi David, who saw the potential in me and referred the students to me

Research Experience

Research Assistant, Meru University

Competence Network for E-Inclusion and Assistive Technologies (CNEAT) is a program running through Meru and Isiolo Counties that aims at improving the productivity of people living with disability. Its focus is on the Fabrication of Assistive Devices that help them to access technology flexibly. I also worked closely with the lead researcher, Dr Amos Chege, to ensure good reporting, documentation, and presentations were done.

Leadership Experience

Innovators President, Kenya Methodist University: I foresaw the programs that aimed at improving the practical experience of the students from the school of science and technology within the university.

Technical Support Lead, CNEAT PROJECT: As the lead research Assistant, I was tasked to train the other research assistants on how to collect, clean, analyze, visualize, report, and document the findings.

Church Youth Leader: I'm involved in the societal growth as the Vice Chairperson of the youths in the Presbyterian Church of East Africa, Ruanguene in Meru County.

KeMU Students Representative Class of 2019: Worked as the representative of the class of 2019 students from the Pure and Applied Science department at Kenya Methodist University.

Leadership Experience

Feeding Street Children, Meru: Under the Innovators Club, I spearheaded these activities to feed street children in Meru County.

Innovators Club, Mentorship: During my time as the president, we came up with a system for Smart Agriculture that is essential in Irrigation.

Visiting Homes for People with Disability: We visited homes around Meru to create a touch and a sense of belonging within the community.

Interests

Survival Analysis, Evidence Synthesis, Risk Prediction, Meta Analysis, Machine Learning, Data Analysis, Statistics, Teaching, Technology and Inclusivity

Languages

English & Swahili (ENGLISH - My home country's official language and medium of instruction).
